

Commune Federation of Mondulkiri

We as representative of the federation of six communes who includes 12 SHGs in five districts of Mondulkiri province, create and establish this federation in order to reply to the needs of our people living in a remote region. Our federation will happen through election who will participate from 500 members. In addition, we have the support from all authorities and facilitation from Nomad RSI organization of Mondulkiri province. Our overall objectives are:

- To improve Hygiene and Health through Health promotion and Education
- To make better Mother and Child health by providing health education and awareness to community through a close collaboration with partner NGO, especially Nomad RSI.
- Make sure all members understand about infectious diseases and use health service
- Increasing relationship and help each others.
- Conserve the culture and tradition of ethnic minority
- Improve livelihood of group member and community through small enterprise such as: Handicraft (Bamboo craft, Rattan craft, basket, etc), family development through husbandry and home garden, Small business, and Phnong Cultural performance.

Expected Results of the federation:

- Improve health and Hygiene in all commune partners and Community.
- Improve Mother and Child health and reduce mortality rate
- Infectious diseases are reduced
- Increasing the number of SHG groups and Community going to get health service from Health Centers
- The member of the federation participate to institutional local development through the integrated workshop at the district level
- The number of SHG member in the federation increase
- The culture and traditional of ethnic minority is conserved
- Federation members will improve their skills and knowledge
- Improve livelihood of commune partners and community members

We hope that federation members and Community will develop and understand about health issues and particularly, improve the livelihoods in the community.
